

XLK Microstructure Statistical Arbitrage: New-Data Progress Report

Market-neutral XLK-vs-basket arbitrage is audited separately from XLK-only sparse-basket fair-value timing. The report emphasizes spread construction, gross/no-cost economics, transaction-cost scenarios, and last-trade execution proxies.

Top Holdings

symbol	official_weight_pct	basket_weight
NVDA	14.4920	0.1861
AAPL	12.3596	0.1587
